Re: Support for Green Belt

It is with great pleasure to announce our interest to formally join the ***Partenaires du Parc Écologique de l'Archipel de Montréal (PPÉAM)*** - to support the creation of a greenbelt for Montreal and southwestern Quebec.

Alliance Southwest 21 is a non partisan organization of citizens dedicated to understanding, in socio-economic terms, the transition that is taking place in the Southwest region of Montreal . Our principle endeavors are to promote free, open access to projects, plans and the decision makers who are responsible for these forthcoming changes.
